

Walking Tips

- Always look both ways before crossing the street, even at marked crosswalks and traffic signals.
- If obstacles, such as parked cars, block your view of oncoming traffic, slowly step out and make sure drivers can see you before crossing.
- Be alert! Don't assume you are safe, even in a crosswalk with a "Walk" signal.
- Be alert! Be aware of all traffic, particularly vehicles taking a "right-on-red."
- Make eye contact with approaching drivers and signal your intention to cross.
- When crossing roads with multiple lanes of traffic going in the same direction, be extra careful. A driver yielding in the near lane may prevent a driver in the far lane from seeing you.
- During the day, wear bright, light clothing. In bad weather or at night, wear reflective clothing and add reflective tape to any mobility device, such as a cane or wheelchair.
- If there are no sidewalks, walk facing traffic.
- Stay to the right side of the trail except when otherwise designated.

Biking Tips

- Yield to pedestrians.
- Give an audible warning when passing pedestrians and slower bicyclists and pass at a safe distance.
- Ride at a speed appropriate for conditions -- in other words, safely.
- Signal your turns and when slowing down. Make it obvious for drivers to anticipate your actions.
- While on roads, you are a vehicle and are required to obey traffic laws.

Columbia City Map

This map shows you how to get to, from, and around Columbia City by bus, bicycle, car, and on foot. Columbia City has lots to offer and lots of ways to get around. As this map shows, getting there is easy!
